

Compact, Stylish and Proficient

RICE MAT MAKER

ASM865CE

Patent Pending

Better Quality Rice Mat for Higher Productivity!

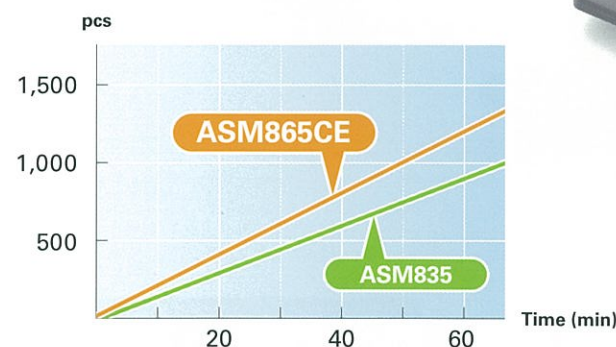

Productivity improvement reflected by comparison of the same rice length of 100mm shown below.

ASM835 900 pcs/h

ASM865CE 1,200 pcs/h

The new machine can produce 300 pcs rice mats more compared with the conventional machine!

Hopper Lid Safety Sensor

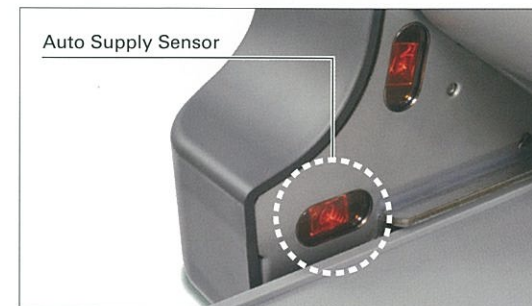

Emergency Stop Button

Control Panel

Improved Auto Supply Sensor Position

- Re-location of the Auto Supply Sensor to forward position improves the functionality of the operation.
- Durability of the sensors is also enhanced by this change.

Non-usage of Teflon Coating

- By not using Teflon coating on the slide base, the concern about food contamination is eliminated.

Compact Body and Stylish Design

- By sushi machines industrial standards, this machine fulfills the shortest width and lightest weight specifications.
- Even with the above specifications, the hopper capacity has been increased from 6.0 kg to 8.2 kg.

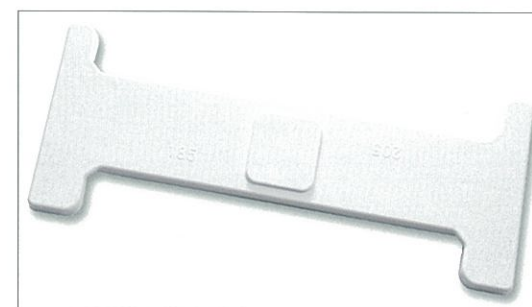

Operation Panel

- The operation panel is stylish and easy to operate.

Less Machine Components

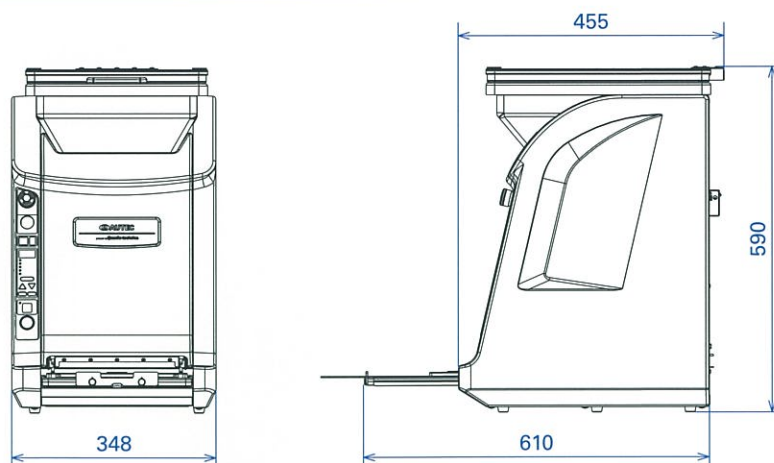

- Improved magnetic seaweed guide eliminates the need for screws.
- Common seaweed guide can be used for both 185 mm and 205 mm roll length.

Easy Program Update

- Updates can be done very easily.
- Updates can be uploaded via the USB port with the minimal time.

Power Supply	AC230 V (50 / 60 Hz)
Forming Capacity	900 - 1,200 mats/h
Hopper Capacity	8.2 kg
Dimensions	W 348 mm x D 455 mm (max 610 mm) x H 590 mm
Weight	Approx. 33 kg

Optional Parts

Foot Switch

Convenient and hygienic as there is no need to touch buttons during operation.

Aluminium Pick Plate

Effective and quicker operation are realizable by using this high durability tool.

Accessories

Lubricant Spray

AUTEX

Spray onto necessary machine parts, rice trays and rice boxes before operation to prevent rice from sticking to the surfaces.

Wrapping Mat

Super hygienic and easy to clean up and dry.

Dimensions	M: W 250 mm x H 240 mm
	L : W 250 mm x H 305 mm
